

Bulk Sedum Cuttings

Overview

Bulk Sedum Cuttings are a good choice for overall green roof planting, overplanting plug installations, filling in sparse areas, as well as mat or module production. With over 40 varieties offered, the options are limitless.

Benefits

- Very economical
- Fast and easy installation
- Quick establishment
- Customized mixes
- Many different uses

Technical Data

- Length - 1/2" to 3"
- 200-600 Cuttings per pound (Depends on variety)
- Coverage depends on spread rate

Installation

Hand cast cuttings directly over a minimum 2" freshly wetted growth media at required rate. Temporary hydromulch, lightweight erosion control blanket, or sand/topsoil or sand/compost mix can be placed over the cuttings if desired. Water thoroughly.
