Plugs are a versatile choice for planting on green roofs. Select from over 75 perennial and groundcover varieties, including 45 different Sedums. Our numerous varieties offer countless design options from simple to elaborate planting plans.

Our plugs are grown to order in 3 different sizes: 128 cell, 72 cell (our most popular), and 24 cell (Sedums only) in 4-16 weeks.

By offering contract grown plants, we can ensure that you get exactly the size, varieties and quantity you need delivered in the best possible condition for planting. Grown product can be shipped to you within two weeks.

Contact us at (877) 694-7613 or sales@etera.com for a price quote or to place an order.

Limited quantities of inventory for immediate needs may be available.

Check our availability online at www.etera.com
